

- **Enhanced methods for teaching “Putting It All Together”** – Putting It All Together gives students the opportunity to work as a team by using a minimum of eight scenario simulations; Instructors provide more information about the patient’s condition as it’s asked for by the students to simulate real-life case scenarios.

Q: Who is the target audience for the PEARs Course?

A: The AHA’s PEARs Course is for healthcare providers and others who infrequently see critically ill infants and children. This audience could include

- Physicians and nurses not specializing in pediatrics
- Nurse practitioners
- Physician assistants
- Emergency medical technicians
- Respiratory therapists
- Prehospital and in-hospital healthcare providers (outside of critical-care areas)
- Outpatient clinic staff
- School-based providers

Q: What is the format of the PEARs Provider Course?

A: PEARs is a classroom-based, Instructor-led course. In the course, skills are taught in large-group sessions and small-group learning and testing stations where case-based scenarios are presented using the course video. The PEARs Course includes child and infant BLS skills practice and testing.

Q: What are the course completion requirements for PEARs?

A: For successful course completion, students must

- Actively participate in the case discussions
- Actively participate in the rescue breathing skills station and cardiac arrest case simulations
- Pass the skills tests in 1- and 2-rescuer child BLS with AED and 1- and 2-rescuer infant BLS
- Pass the video-based written exam with a minimum score of 84%

Q: Approximately how long does the PEARs Course ta
